

THE CAMPAIGN FOR BEAUTY, HEALING AND HOPE

BUILDING THE HEALING GARDEN AT BENESSE ONCOLOGY CENTER OF MAJOR HOSPITAL

The Healing Garden: Nature as Healer

A healing garden is not just an ordinary garden. It provides a beautiful place where patients and their families can find beauty, comfort, and solitude—and hope for healing.

A study done at Texas A & M University found that patients with access to nature scenes

- had a more positive outlook,
- had fewer negative emotions,
- were able to block or reduce stressful thoughts,
- had shorter post-operative stays,
- took less pain medication, and
- had fewer post-operative complications.

The private treatment areas at Benesse Oncology Center of Major Hospital face wide floor-to-ceiling windows that look out onto the Healing Garden so that patients can enjoy the beauty of nature. Combined with the state of the art cancer treatment provided at Benesse Oncology Center, the Healing Garden will do just that—help cancer patients heal.

YOU CAN GIVE A GIFT OF BEAUTY, HEALING AND HOPE.

The Healing Garden at Benesse Oncology Center will be a lovely, intimate space that offers a walk of engraved pavers, serene fountains, comfortable benches and lush landscaping.

The personalized, engraved pavers that will form the central walk will acknowledge and remember individuals and families. Some will celebrate the birth of a child, others will memorialize a relative, and still others will commemorate an event that is special to the donor or donor's family. Whatever the purpose, each paver will serve as a lasting tribute, and the purchase price will help fund the Garden.
